

Product Profile

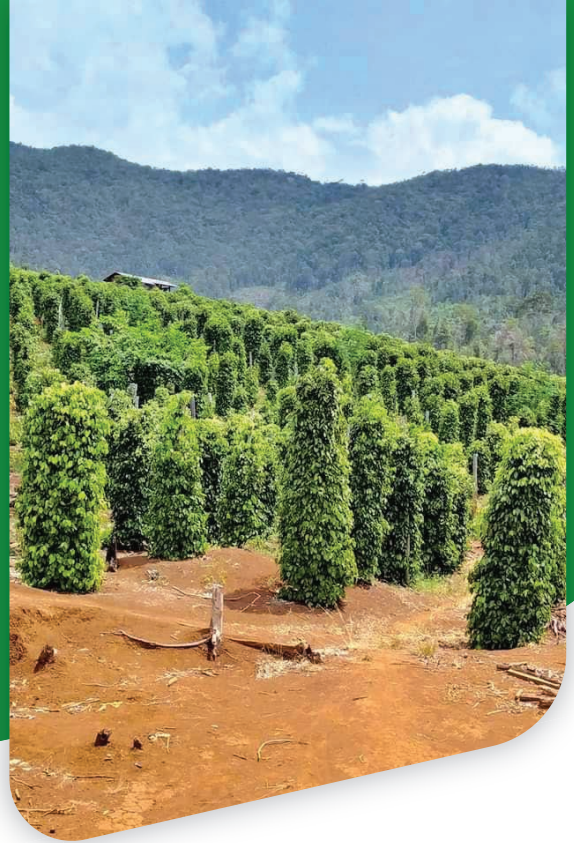

Malonan 1 Pepper

National Superior Pepper Varieties

Produced by CV. Handayani Mitra Usaha - Indonesia

About Mricaku

Typical pepper from East Kalimantan (Kaltim) Province, specifically a plant from Kutai Kartanegara Regency, was well recognized after obtaining a certificate of geographic indication of Malonan white pepper from the Indonesia Ministry of Law and Human Rights. This typical East Kalimantan white pepper is a national superior variety called Malonan 1.

This pepper seeds commonly used by farmers in Loa Janan and Muara Badak Districts, Kutai Kartanegara Regency are 5 to 6 segments or the roots of the parent pepper plant.

which has been recognized as a superior variety of pepper with high oleoresin content (spicy), with the name Malonan1.

In accordance with the Decree of the Minister of Agriculture of the Republic of Indonesia Number 448/Kpts/KB.120/7/2015 dated July 6, 2015

Pepper Quality Component Malonan 1

Items	Essential Oils (%)	Piperine (%)	Oleoresin (%)
White Pepper	2,35	3,82	11,23
Black Pepper	2,61	3,18	15,60

In addition to the high containment, Malonan 1 is tolerant of stem rot disease and able to produce throughout the year with an average production of 2.17 tons per hectare per year.
