

**CARE FOR
PEOPLE**

About Us

Alvaro Trans Global is a solution to the problem of commodities in West Java. We work together with farmers to jointly advance the national economy. Given the abundant potential of coffee in West Java and a large international coffee market, we took the initiative to introduce Indonesian coffee to the world. To realized this desire, our company can supply coffee beans according demands. So costumers do not to worry about insufficient demand

*We are based in West Java, Bandung
Established since December 15 2020*

Our Vision

Build a company by producing products that prioritize quality and quantity in order to create a long business

Our Mission

- ✓ Able to prosper coffee farmers in order to improve their standard of living
- ✓ Increase the quantity by working with many farmers so that demand is fulfilled
- ✓ Maintain every production process that creates the best quality coffee beans
- ✓ Expanding the network of coffee companies in many countries

Our Service

We help the farmers to sell their coffee to the international market and we help every process from packaging, transaction and shipping

Why Us

INTEGRITY

Establish a good relationship by uploading attitude and honesty. Thus creating good integrity

PRICING

Set fair and competitive prices to our costumers, in order to remain in the industry and among other competitors

QUALITY

Provide the best service and products according to the needs that consumers wants

COMMITMENT

We will continue to provide the best to our costumers all the time.

Galery *Harvest*

Our farmers pick the coffee cherries from the fields for immediate processing

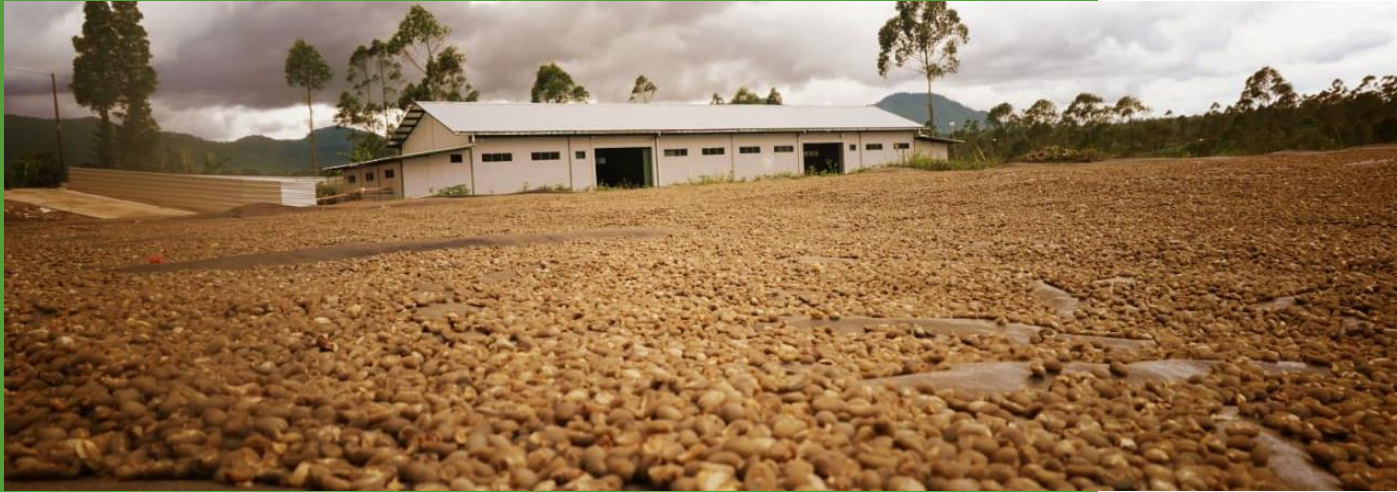

Galery *Process*

The coffee cherries that have been harvested are then processed to be separated from the skin then they are processed full wash, semi wash, natural, honey

Galery **Process**

After processing
the coffee
beans in the sun
to reduce
moisture
content

Galery *Packaging*

After a long processed.
Put the coffee into the
plastic and sack to be put
into the container

Galery *Stuffing*

Fill a Twenty-Foot container with a sack filled with coffee

Galery *Stuffing*

The filled container are ready to be lifted to the port for shipment to destination country
