Tri Hita Karana: The Three Reasons of Prosperity

Derived from the Balinese spiritualism and beliefs, Tri Hita Karana is the basis of the island's prosperity as a whole. It promotes **harmony among fellow human beings**; **harmony towards God**; and **harmony with their environment** through conserving the nature and promote the sustainability of the environment.

As digital age is inevitable and soon impacting each aspects of the sacred life in Bali, we are meant to assure that the traditional value lives in harmony.

Started From A Noble Mission, Helping Local Farmers, Opening Wider Access to the Market

Panenpa is a **global export company** of premium products in fresh fruits, vegetables, and spices based in **Bali, Indonesia**.

We believe in the value of **”Connecting Prosperity”** to produce sustainable agricultural products as a long-term and mutually beneficial partnership with local farmers to improve their quality of life.

Our Products: *Finest Guaranteed*

Our products are grown in the **world's largest archipelagic country** with abundant soil fertility. That's why we offer only the **best quality of Indonesian products** to the world.

We also empower our farmers to innovate, train and develop their products to meet the **premium standard for global market**.

Featured Products

Organic Red Dragon Fruit

Dragon fruit is one of the largest commodities in Bali and contributes as the largest export commodities of Indonesia. Our farmers produce up to 90 tons every year and organic product certified.

Dragon fruit contains high vitamin C and carotenoids to boost our immune system and prevent infection by protecting the white blood cells from damage.

Featured Products

Bell Pepper

The Indonesian bell pepper market is dominated by a small number of professional and specialized farmer groups, including ours. These delicious vegetables come in a wide variety of colors, including yellow, orange, red, purple, brown and black. Rich in antioxidant and anti-inflammatory nutrients, bell pepper would be expected to provide us with important anti-cancer benefits.
